

20th IUHPE World Conference on Health Promotion: Health, Equity and Sustainable Development, July 11 – 15, 2010

Selected sessions - Cross cutting issue: **best practice & related sessions**

This is a non-exhaustive list of conference sessions, that relate to the above cross cutting issue. Selected by the local organizer as part of its preparations of the sub-plenary on that issue (see below), the sessions were identified mainly based on an electronic programme scan (session titles only) by the key word/issue above - *best practice* - plus *selected related issues* (such as *context* or the *value/ethics* base of health promotion). It may be useful to participants with particular interest in those issues.

Monday, July 12th, 2010

14:30 – 16:00

Good practice in Health Promotion (*with presentation on best practice*)
WS E1

16:30 – 18:00

Sub-Plenary: Striving for *best practice* – Are current frameworks from Europe and Canada ethically and contextually ‘fit’ for global practice?
Room 3+4

Wednesday, July 14th, 2010

11:00 – 12:30

Implementation of Health Promotion Switzerland’s *best practice* concept – showcasing from projects / programmes in private sector, public sector, and in research / evaluation
Room 3

Related Sessions 1: best practice, context, value base

More comprehensive understandings of *best practice* give particular attention to the **context** of projects, programs, interventions and/or the **value base** of health promotion action. Here are some sessions that according to the session title address those dimensions as their main topic:

Monday, July 12th, 2010

18:15 – 19:30

Workshop in using PAHO’s guidelines and *guide for documenting* Health Promotion initiatives (including project/ intervention context)
Room 7

Exploring the need for an international code of ethics for Health Promotion
Room 6

The dynamic nature of Health Promotion programs: An evaluation tool for conceptualizing and optimizing the *interactivity between people and things*
Room 12

How to translate experiences from case studies in the field of school health and *how do we adapt* the good practice examples *to different contexts*
Room 18

Tuesday, July 13th, 2010

14:00 – 15:30

Settings research in low resource environments: Innovations in knowledge development and its use
Room 6

Wednesday, July 14th, 2010

11:00 – 12:30

Culturally appropriate Health Promotion
Room 11

Thursday, July 15th, 2010

11:00 – 12:30

Probing realist evaluation techniques (addressing also the project/ intervention context)
Room 7

Related Sessions 2: best practice, knowledge dimension, neglected or evolving issues

Another important dimension of **best practice** is the **knowledge or evidence base** of health promotion action. Here is a non-exhaustive list of sessions whose title point to selected current, so far **somewhat neglected and/or evolving issues** that receive currently more attention in health promotion. Pl. find many more sessions such as on evaluation, evidence, effectiveness, quality development in the program!

Monday, July 12th, 2010

14:30 – 16:00

Cost Benefit Analysis of Prevention Measures: The Results of Three Swiss Case Studies in the Areas of Smoking, Alcohol and Traffic Accidents
Room 1

What is Health Promotion research? Examples from the field
Room 6

16:30 – 18:00

Surveillance: Making Health Promotion Accountable
Wild Side, Room A

Tuesday, July 13th, 2010

11:30 – 12:30

What is the effectiveness of using evidence in Health Promotion practice?
Room 19

Systematic reviews of Health Promotion and public health interventions
Room 12

Wednesday, July 14th, 2010

11:00 – 12:30

Strengthening Health Promotion research: what can IUHPE do?
Wild Side Room C

14:00 – 15:30

The use of evidence for policy: evidence-informed decision making
Wild Side, Room A

Thursday, July 15th, 2010

11:00 – 12:30

Effectiveness of governance tools for health in all policies in action
Room 6

Using Evidence at the Local Level
Room 11
